

## Environmental Policy Ulbrich Specialty Strip Mill

Protection of the environment is a core value at Ulbrich Specialty Strip Mill. We are committed to the continual improvement of the Environmental Management System (EMS) by following the principles and requirements of ISO 14001:2015. We emphasize operating in an environmentally responsible manner by following these guiding principles:

- Continually improve the effectiveness of environmental management systems;
- Follow environmentally sound operating practices in order to prevent pollution;
- Encourage a culture of employee participation and continuous improvement;
- Achieve exceptional high levels of recycling, recovery and reuse of materials;
- Reduce greenhouse gas emissions through energy efficiency projects;
- Train employees in sound environmental practices; and
- Committed to meeting compliance obligations including federal, state, and local environmental regulations.
